

SARAVANAN I

Tamilnadu, India | 6382515208 | saravanan2004in@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Results-driven backend developer skilled in building secure, scalable REST APIs using **Core Java**, **Spring Boot**, **Spring Security**, and **MySQL**. Experienced in designing JWT-authenticated, role-based systems with layered architecture and **cloud deployment on AWS**. Passionate about writing clean, maintainable code aligned with best practices.

EDUCATION

A.V.C. College of Engineering B.E. Electronics and Communication Engineering CGPA: 7.45	2022-2026
Raj Matric Higher Secondary School 12th Grade 63.7	2021-2022
Govt. Higher Secondary School 10th Grade 66.8	2019-2020

TECHNICAL SKILLS

Language : java

Frameworks : Spring Boot, Spring Security, Hibernate, Spring Data JPA, REST APIs

Database & Tools: MySQL, JDBC, Postman, Maven, Git, GitHub, Linux

Cloud Tools: AWS EC2, AWS RDS

Concepts: OOP, DBMS, DSA

PROJECTS

FrameSlot — Studio Booking Platform

Tech Stack: Java, Spring Boot, Spring Security, JWT, JavaMailSender, MySQL, AWS EC2, AWS RDS

- Developed a cloud-deployed studio booking platform with JWT-secured REST APIs for slot reservation, availability management, and automated email confirmations.
- Implemented role-based access control for admin and customer workflows; deployed backend on AWS EC2 with MySQL on AWS RDS for production-grade reliability.

Employee Leave Management System

Tech Stack: Java, Spring Boot, Spring Data JPA, Spring Security, MySQL, Maven

- Built a role-based system (Employee, Manager, Admin) with JWT authentication; delivered 12+ REST APIs for leave application, approval, rejection, and balance tracking.
- Structured using Controller-Service-Repository pattern with Spring Data JPA to ensure maintainability and scalability..

HelpDesk System (Role-Based)

Tech Stack: Java, Spring Boot, Spring Data JPA, MySQL, REST API, Maven

- Engineered a multi-role ticketing platform (User, Agent, Admin) with 15+ APIs covering ticket creation, assignment, escalation, and resolution workflows.
- Applied global exception handling, request validation, and audit tracking to improve data integrity and application stability.

CERTIFICATIONS

IBM Java Developer Professional Certificate (Coursera)

JPMorganChase Software Engineering Job Simulation on Forage

EXTRACURRICULAR ACTIVITIES

National Cadet Corps (NCC)

- **Rank:** CPL (Corporal)
- **Certification:** NCC 'B' & 'C' Certificate (A & B Grade)
- Developed leadership, discipline, and teamwork skills
